#### Financial Statements of

#### HOUSTON LAKE MINING INC.

Six months ending September 30, 2011 and 2010 (Unaudited and Prepared by Management)

#### NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the interim financial statements, the financial statements must be accompanied by a notice indicating that the statements have not been reviewed by an auditor. The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of the Company's management. The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

#### 1. Nature of Operations and Going Concern

Houston Lake Mining Inc. (the "Company") was incorporated as 646215 Alberta Inc. by Certificate of Incorporation issued pursuant to the Business Corporations Act (Alberta) on March 13, 1995. The name of the Company was changed to its present name, Houston Lake Mining Inc., by Certificate of Amendment dated April 21, 1995.

These unaudited interim financial statements, including comparatives, have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, which assumes continuity of operations and realization of assets and settlement of liabilities in the normal course of business for the foreseeable future, which is at least, but not limited to, one year from September 30, 2011. The Company is subject to risks and challenges similar to companies in a comparable stage of exploration. As a result of these risks, there is significant doubt as to the appropriateness of the going concern assumption. There is no assurance that the Company's funding initiatives will continue to be successful and these financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material. The Company will have to raise additional funds to advance its exploration and development efforts and, while it has been successful in doing so in the past, there can be no assurance that it will be able to do so in the future.

#### 2. Critical Accounting Policies

#### **Basis of Presentation**

These interim financial statements have been prepared in accordance with IFRS applicable to the preparation of interim financial statements, including *International Accounting Standards 34: Interim Financial Reporting ("IAS 34")* and IFRS 1: First-time Adoption of International Financial Reporting Standards ("IFRS 1"), as adopted by the International Accounting Standards Board ("IASB")

The Company's IFRS accounting policies are presented in this note below. They have been applied in preparing the interim financial statements for the period ended September 30, 2011, the comparative information, the annual financial statements for the year ending March 31, 2011 and the opening statement of financial position as at April 1, 2010 transition date ("Transition Date").

The Company applied IFRS 1 in preparing these IFRS interim financial statements. Reconciliations, descriptions and explanations of how the transition to IFRS has affected the reported financial position, financial performance and cash flows of the Company are outlined in Note 8.

The accounting policies applied in these interim financial statements are based on IFRSs issued and outstanding as of November 28, 2011, the date the Board of Directors approved these interim financial statements. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending March 31, 2012 could result in the restatement of these interim financial statements, including the transition adjustments recognized on the change-over to IFRS.

The interim financial statements should be read in conjunction with the Company's Canadian generally accepted accounting principles ("Canadian GAAP") annual financial statements for the year ended March 31, 2011 and the unaudited interim financial statements prepared in accordance with IFRS 1 and IAS 34 for the three month period ended June 30, 2011 with comparatives and reconciliations reported in Note 8.

#### Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated amortization. Cost is net of related investment tax credits and government grants. Amortization based on the estimated useful life of the asset is calculated as follows:

Computer equipment	- 55/45/30%	diminishing balance basis
Computer software	- 33 %	diminishing balance basis
Furniture and fixtures	- 20 %	diminishing balance basis
Vehicles	- 30 %	diminishing balance basis
Field equipment	- 30%	diminishing balance basis

Property, plant and equipment that is acquired during the year is amortized at one-half of the stated rate.

#### **Cash and Cash Equivalents**

Cash and cash equivalents consist of cash on hand, bank balances and investments in money market instruments with maturities of three months or less.

#### **Exploration and Evaluation Assets**

The Company follows the practice of capitalizing all costs related to acquisition, exploration and development of mineral properties until such time as mineral properties are put into commercial production, sold or abandoned. If commercial production commences, these capitalized costs will be amortized prospectively on a unit-of-production basis based on estimated reserves. If the mineral properties are abandoned, the related capitalized costs are expensed.

The carrying value is reduced by the option proceeds received until such time as the property cost and deferred expenditures are reduced to nominal amounts.

The amounts shown for exploration and evaluation assets represent costs incurred to date less write-downs, and are not intended to reflect present or future values.

#### General

Administrative, prospecting and general expenses are expensed in the year in which they are incurred.

#### **Income Taxes**

The Company follows the asset/liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for timing differences between the tax and accounting basis of assets and liabilities, and for the recognition of accumulated capital and non-capital losses, which in the opinion of management, are more likely than not to be realized before expiry.

#### **Income Taxes (Continued)**

Deferred tax assets and liabilities are measured at the tax rates that are expected to be in effect in the period when the asset is expected to be realized or the liability is expected to be settled, based on tax rates that have been enacted or substantively enacted at the end of the reporting period.

The effect on deferred income tax assets and liabilities resulting from a change in enacted tax rates is included in income in the year in which the change is enacted or substantively enacted. Deferred income taxes related to flow-through share tax renunciation is recognized in the year in which the company has finished incurring all eligible expenditures under the flow-through share agreement.

#### Flow-Through Shares

The Company will, from time to time, issue flow-through shares to finance a portion of its exploration programs. Pursuant to the terms of flow-through share agreements, the Company agrees to incur qualifying expenditures and renounce the tax deductions associated with these qualifying expenditures to the flow-through subscribers at an agreed upon time.

Flow-through shares are reported at issue price. If the flow-through shares are issued at a premium to the market price of non-flow through or hard dollar shares at the date of announcement, such premium or excess proceeds is reported as a liability on the Statement of Financial Position. The subsequent renunciation of such qualifying expenditures incurred by the Company in favor of the flow-through subscribers is reported as a reduction in the liability on the Statement of Financial Position and as other income or a reduction of the deferred tax expenses on the Statement of Operations and Comprehensive Loss.

#### **Critical Accounting Estimates and Judgments**

The preparation of interim financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, and contingent liabilities at the date of the interim financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Significant areas requiring the use of management estimates include, but are not limited to, the determination of carrying value of exploration and evaluation assets, the valuation of share-based compensation transactions, the valuation of purchase warrants issued on financings, deferred income tax assets and liabilities, and accrued liabilities.

#### **Revenue Recognition**

Revenue from the sale of mineral products are recorded on a gross basis when title passes to an external party. The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable and collection of the related receivable is reasonably assured. Title and risk of loss generally pass to the customer at the time of

delivery of the product.

#### **Financial Instruments**

The carrying amounts for cash and cash equivalents, cash restricted for flow-through expenditures, GST/HST receivable, accounts payable and accrued liabilities, and due to related party on the balance sheet approximate fair value due to their short-term maturity or capacity for prompt liquidation.

Fair value estimates are made at the balance sheet date, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties in significant matters of judgment and therefore, cannot be determined with precision. Changes in assumptions could significantly affect these estimates.

#### **Financial Assets**

#### Held for Trading

Financial assets that are held with the intention of generating profits in the near term and derivative contracts that are financial assets, except for a derivative that is a designated and effective hedging instrument, are classified as held for trading. In addition, any other financial assets can be designated by the Company upon initial recognition as held for trading. These instruments are subsequently remeasured at fair value with the change in the fair value recognized in net income or expense during the period.

#### Held to Maturity

Financial assets that have a fixed maturity date and which the Company has a positive intention and the ability to hold to maturity are classified as held to maturity, and are subsequently re-measured at amortized cost using the effective interest rate method.

#### Loans and Receivables

Loans and receivables are non-derivative financial assets resulting from the delivery of cash or other assets in return for a promise to repay on a specified date, or on demand usually with interest. Loans and receivables are subsequently re-measured at amortized cost using the effective interest rate method.

#### Available for Sale

Available for sale assets are non-derivative financial assets that are either designated in this category or not classified in any of the other categories. Financial assets classified as available for sale are subsequently re-measured if they have quoted market value in an active market. Otherwise, these investments are carried at cost and are written down when impairment is considered that is other than temporary.

#### **Financial Liabilities**

#### Held for Trading

Financial liabilities that are held with the intention of generating profits in the near term and derivative contracts that are financial liabilities, except for a derivative that is a designated and effective hedging instrument, are classified as held for trading. In addition, any other financial liabilities can be designated by the Company upon initial recognition as held for trading. These instruments are subsequently re-measured at fair value with the change in the fair value recognized in net income during the period.

#### Other Financial Liabilities

Non-derivative financial liabilities that have not been designated as held for trading are classified as other liabilities, which are subsequently re-measured at amortized cost using the effective interest rate method.

The company has made the following classifications

- Cash and cash equivalents is classified as a financial asset "held for trading" and is measured at fair value. Gains and losses resulting from period revaluation are recorded in net loss;
- Cash restricted for flow-through expenditures is classified as a financial asset "held for trading" and is measured at fair value. Gains and losses resulting from period revaluation are recorded in net loss;
- GST/HST receivable is classified as "loans and receivables" and is recorded at amortized
  cost, which upon their initial measurement is equal to their fair value. Subsequent
  measurements are recorded at amortized cost using the effective interest method; and
- Accounts payable, accrued liabilities and due to related party are classified as "other financial liabilities" and are initially measured at their fair value. Subsequent measurements are recorded at amortized cost using the effective interest rate method.

Transaction costs are expensed as incurred for all financial instruments.

#### **Loss Per Share**

Basic loss per share is calculated by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted loss per share assumes the conversion, exercise or contingent issuance of securities only when such conversion, exercise or issuance would have a dilutive effect on earnings per share.

#### **Share-based compensation transactions**

#### **Stock Options**

The fair value of stock options granted to directors, officers, employees and consultants is measured at grant date using the Black-Scholes valuation model using assumptions for risk-free interest rates, dividend yields, volatility factors of the expected market price of the Company's common shares, expected forfeitures and expected life of the options. The fair value of this share-based payment is recognized as a charge to the Statements of Operations and Comprehensive Loss with a corresponding credit to contributed surplus on the Statement of Financial Position.

The fair value of stock options, subject to a vesting schedule, is recognized using the accelerated method. The fair value of each vested tranche is measured using Black Scholes using assumptions at the time of vesting.

Management is required to estimate forfeitures, and revise it's estimates of the number of stock options expected to vest each period. The impact of any revisions to management's estimate on forfeitures, if any, is recognized during the period.

#### **Comprehensive Income**

Comprehensive income is the change in equity of the Company during a reporting period from transactions and other events and circumstances from non-owner sources. It includes all changes to equity during a period except those resulting from investments by owners and distributions to owners. Comprehensive income is comprised of net income for the period and other comprehensive income, and this standard requires certain gains and losses that would otherwise be recorded as part of net earnings to be presented in "other comprehensive income" until it is considered appropriate to recognize into net earnings.

The Company had no comprehensive income or loss transactions, other than its net loss. The Company's Loss from Operations and its Comprehensive Loss are equal.

#### **Asset retirement obligations**

Asset retirement obligations are legal and/or constructive obligations. These obligations include, but are not limited to, the retirement of exploration and evaluation assets such as restoration, reclamation and re-vegetation of affected areas.

The Company records the estimated fair value of a liability, and corresponding increase in the related property, for an asset retirement obligation in the year in which it is incurred and when a reasonable estimate of fair value can be made. The fair value of a liability for an asset retirement obligation is the amount at which that liability could be settled in a current transaction between willing parties, that is, other than in a forced or liquidation transaction and, in the absence of observable market transactions, is determined as the present value of expected cash flows. The Company subsequently allocates the cost of the asset retirement to expense using a systematic and rational method over its useful life, and records the accretion of the liability as a charge to the Consolidated Statements of Operations and Comprehensive Loss.

#### **Asset Retirement Obligations (continued)**

As of September 30, 2011, the Company had no environmental expenditures or known liabilities.

#### 3. Exploration and Evaluation Assets

	·	
	\$ 9,781,627	\$ 9,529,320

#### (a) Dogpaw Lake Property – Kenora, Ontario

The Dogpaw Lake Gold Property is located adjacent to the Company's West Cedartree Property. The Company holds a 100% earn in interest subject to a 2.5% net smelter royalty ("NSR"). Houston Lake may purchase back up to 1.5% of the NSR for \$500,000 per 0.5%. The property consists of 13 patented mining claims and one License of Occupation.

#### (b) West Cedartree Property – Kenora, Ontario

The West Cedartree Gold Property is located in the Cedartree Lake area within the Kenora Mining District of Ontario, Canada. The property consists of four (4) parts: the Jesse (North) Property, the West Cedartree Property, the McLennan Property and the Dogpaw West and Gold Sun Properties. All four are contiguous and considered as one property for exploration purposes.

Jesse (North) Property

The Company earned a 100% interest in 1 unpatented mining claim in the Jesse (North)

Property. The vendor is a related party and holds a 2.5% net smelter royalty.

Houston Lake Mining Inc.
Notes to Financial Statements
For Six Months Ended September 30, 2011 and 2010 (Unaudited)

#### 3. Exploration and Evaluation Assets (Continued)

West Cedartree Property

The Company holds a 100% interest in the 20 claim unit West Cedartree Property comprising 3 unpatented claims.

McLennan Property

The Company has a 100% interest in 7 patented mining claims comprising the McLennan Property. One of the vendors retains a 0.75% net smelter royalty while a related party retains a 1.5% net smelter royalty.

Dogpaw West and Gold Sun Properties

The Company has a 100% interest in the Dogpaw West and the Gold Sun properties. This area includes 4 unpatented mining claims. The ownership interest is subject to a 2.5% net smelter royalty ("NSR"). The Company can purchase up to 1.5% of the NSR for \$500,000 per 0.5%.

#### (c) North Block – Kenora, Ontario

The Company has a 100% interest in the 1 unpatented claim of the North Block Gold Property in the Cedartree Lake area within the Kenora Mining District of Ontario, Canada. The vendor retains a 2% net smelter royalty ("NSR").

#### (d) Tib Lake - Thunder Bay, Ontario

The Company holds a 100% interest in the 20 unpatented Tib Lake PGM Property located in the Thunder Bay Mining District of Ontario. The vendor retains 2.5% NSR subject to a 1.0% buyback for \$1 million.

#### (e) Pakeagama Lake – Red Lake, Ontario

Pakeagama Lake West Property

The Company has a 100% interest in the Pakeagama Lake Property. The 100% ownership interest is subject to a 2.5% NSR subject to a 1.0% buyout provision. During fiscal year 2007, the Company issued 140,000 common shares to an arms length individual for total consideration of \$91,000 and must make annual payments of \$1,000 until 2011 (inclusive) in order to retire the advance royalty on the property.

The Company did not spend the required amount of funds on the eight mining claims surrounding the Pakeagama Lake Property in order to renew them. As a result, the Company had to write down all costs relating to the acquisition of these claims, resulting in a \$194,458 write-down against income in the year ending March 31, 2011. Three claims contiguous to the Pakeagama Lake Property have been acquired in the fiscal year ending March 31, 2011 and are collectively known as the "Pakeagama Lake Southeast Property."

#### 4. Exploration and Evaluation Assets (Continued)

Pakeagama Lake Southeast Property

The Company has a 100% interest in 3 unpatented mining claims in the Pakeagama Lake Southeast Property. The 100% ownership interest is subject to a 2.5% NSR subject to a 1.0% buyout provision. During fiscal year 2011, the Company issued 100,000 commons shares and paid \$10,000 in a cash payment to two private arms length individuals. The Company will issue 500,000 common shares and pay \$125,000 over the course of the remaining four years without exploration expenditure guarantees to earn a 100 percent interest from the two private individuals.

#### (f) Dubenski Property – Kenora, Ontario

The Company has a 100% option interest in Dubenski Gold Property. The property consists of 22 leased claims and is located adjacent the West Cedartree properties in the Kenora Mining District of Ontario. The vendor retains 2.5% NSR subject to a 500,000 buyback for every 0.5%.

The Company can exercise its option by making cash payments of \$3.5 million and issuing 500,000 common shares by April 30, 2017. The option cannot be exercised until the Company has made cash payments of \$1,000,000 and issued 200,000 common shares to the vendor within the prescribed period. As at March 31, 2011, Houston Lake Mining Inc. has paid \$400,000 and issued 200,000 common shares at a deemed price of \$0.88 per share on May 11, 2007 to the vendor.

#### 4. Property, Plant and Equipment

		pt 30, 2011 unaudited)		Marc	ch 31, 2011 (audited)
	Cost	 cumulated nortization	Cost		ccumulated mortization

Net book value		\$ 26,717		\$	27,273

#### 5. Related Party Transactions

During the Six Months Ended September 30, 2011 and 2010, the Company incurred the following expenditures with a director and companies controlled by directors of the company:

	Sept 30,2011 (Unaudited)	Sept 30,2010 (Unaudited)	
Office and equipment rental	\$ 2,250	\$ 2,250	

The transactions above are in the normal course of operation and are measured at the exchange amount which is the amount of consideration established and agreed to by the related parties.

Included in accounts payable is \$86,355 owing to two corporations controlled by a director of the company.

The amounts due to related party are owed to a corporation controlled by a director. The amount bears interest at the Royal Bank prime rate + 2%, is unsecured, and is due on demand. Interest in the amount of \$4,452 has been accrued and remains unpaid at September 30, 2011.

#### 6. Share Capital

#### Authorized:

- a) unlimited number of common voting shares without nominal or par value
- b) unlimited number of first preferred shares
- c) unlimited number of second preferred shares

The First and Second Preferred Shares may be issued in one or more series. The Directors are authorized to fix the number of shares in each series and to determine the designation, rights, privileges, restrictions, and conditions attached to the shares of each series.

#### Issued:

The changes in share capital for the period are as follows:

Common Shares	Sept 30, 2011 (Unaudited)		
Balance, beginning of period (Note 9)	49,532,637	\$	12,250,543
Issued during the period – none			
Balance, end of period	49,532,637	\$	12,250,543

#### 6. Share Capital Continued

#### **Warrant Issues:**

As at September 30, 2011, the following warrants were outstanding:

Expiry Date	Exercise Price	Number of Shares
November 24, 2011	0.30/0.35	2,000,000
December 22, 2011	0.30/0.35	1,000,000
December 31, 2011	0.30/0.35	270,000
July 9, 2012	0.20/0.25	833,333
December 16, 2012	0.20/0.25	1,562,500
January 18, 2013	0.20	<u>2,143,333</u>
		7,809,166

#### **Stock Option Plan:**

The Company has a share option plan under which options to purchase common shares may be granted by the Board of Directors to directors, officers and employees of the Company and private corporations for terms of up to five years at a price not to exceed that permitted by any stock exchange on which the Company's shares are listed. The maximum number of options available for grant under the plan is 10% of the issued and outstanding shares with no more than 5% granted to any one director.

The following is a summary of the options outstanding at September 30, 2011, which have been granted by the Board of Directors:

Expiry Date	Option Price	Number of Shares
November 24, 2011	0.25	320,000
December 22, 2011	0.25	160,000
December 30, 2011	0.25	43,200
May 10, 2012	1.00	450,000
June 30, 2012	0.20 / 0.25	133,333
November 6, 2012	0.64	200,000
December 16, 2012	0.20 / 0.25	250,000
February 12, 2013	0.40	187,500
October 1, 2013	0.40	250,000
December 18, 2013	0.30	400,000
June 1, 2015	0.20	1,000,000
January 27, 2016	0.145	300,000
June 7, 2016	0.14	<u>1,400,000</u>
		<u>5,094,033</u>

#### 6. Share Capital Continued

In the prior quarter, 1,400,000 stock options were issued to directors of the Company. Using the Black-Scholes option pricing model, the fair value of each option granted is approximately \$0.14. Stock based compensation of \$195,880 was recognized in the year and credited to contributed surplus.

The assumptions used in the Black-Scholes model are as follows:

Risk fee rate of return 0.93% Volatility 235% Dividend yield 0% Expected option life 5 years

#### **Contributed Surplus**

Contributed surplus represents the amount reported as the fair value of stock options issued.

#### 7. Comparative Figures

Certain comparative figures have been reclassified to conform with the current year's method of presentation.

#### 8. First Time Adoption of IFRS

The accounting policies presented in Note 2 have been applied consistently in all periods, in accordance with IFRS, in preparing the unaudited interim financial statements for the six months ended September 30, 2011, the comparative information for the six months ended September 30, 2010, the financial statements for the year ended March 31, 2011 and the preparation of an opening IFRS statement of financial position on the April 1, 2010 Transition Date.

In preparing its opening IFRS statement of financial position, comparative information for the six months ended September 30, 2010 and financial statements for the year ended March 31, 2011, the Company has adjusted certain amounts previously reported in financial statements presented in accordance with Canadian GAAP.

Guidance for the first time adoption of IFRS is set out in *IFRS 1*, which provides for certain mandatory exceptions and optional exemptions for initial adoption of IFRS. There were no changes during the quarter in the IFRS 1 optional exemptions disclosed in the interim financial statements at June 30, 2011.

#### 8. First Time Adoption of IFRS

IFRS does not provide guidance on accounting for the tax consequences of issuing flow-through shares. The Company has adopted the following policy under IFRS. If flow-through shares are issued at a premium to the market price of non-flow-through or hard dollar shares at the date of announcement, such premium or excess proceeds is reported as a liability on the Statement of Financial Position. The subsequent renunciation of the exploration expenses incurred by the Company in favor of the flow-through subscriber is reported as a reduction in the liability on the Statement of Financial Position and other income or a reduction of the deferred tax expenses on the Statements of Operations and Comprehensive Loss.

Changes to accounting policies on adoption of IFRS

#### (a) Asset Retirement Obligations

IFRS requires the recognition of a decommissioning liability for legal or constructive obligations, while current GAAP only requires the recognition of such liabilities for legal obligations. A constructive obligation exists when an entity has created reasonable expectations that it will take certain actions.

This change in accounting policy had no impact on the unaudited interim financial statements.

#### (b) Presentation

Certain amounts in the unaudited interim financial statements have been renamed to follow IFRS.

#### (c) Exploration and Evaluation Expenditures

On transition to IFRS, the Corporation elected to capitalize exploration and evaluation expenditures as incurred. The Company's previous accounting policy under Canadian GAAP was to capitalize exploration and evaluation expenditures as incurred. There is no impact on the unaudited interim financial statements.

#### (d) Flow-through shares

Proceeds from the issuance of flow-through shares are allocated between the offering of the common shares and the sale of tax benefits when the common shares are offered. The allocation is made based on the difference between the market value of the common shares and the amount the investor pays for the flow-through shares. A liability is recognized for the premium paid by investors and is then recognized in operations in the period all the flow-through expenditures are fully expended.

The Company's previous policy under Canadian GAAP was to adopt the recommendations of EIC 146 with respect to the accounting for flow-through shares. This resulted in the Corporation reducing the net proceeds of the flow-through share issuance by the future tax liability of the Corporation resulting from the renunciation of the exploration and development expenditures in favour of the flow-through share subscribers.

The Canadian GAAP Statement of Financial Position as at April 1, 2010 has been reconciled to IFRS as follows:

As at April 1, 2010	Notes	Balance under GAAP	IFRS Adjustments	Balance under IFRS	
Current assets					
Cash and cash equivalents		21,610		21,610	
Cash restricted for flow-		824,480		824,480	
through expenditures		02 1, 100		02 ., .00

Total shareholders' equity		8,522,904	-	8,931,654	
		9,720,291	-	9,720,291	

<sup>(</sup>i) In the year ending March 31, 2010, flow-through shares were issued for proceeds of \$1,635,000. The expenditures were renounced during the year, but the money was not spent until subsequent to year-end. Under IFRS, the company increases deferred tax liability and records deferred tax expense in the year that the expenditures are incurred in full.

The Canadian GAAP Statement of Financial Position as at March 31, 2011 has been reconciled to IFRS as follows:

As at March 31, 2011	Notes	Balance under GAAP	IFRS Adjustments	Balance under IFRS
Current assets				
Cash and cash equivalents		6,676		6,676
Cash restricted for flow-		567,590		567,590

Total current liabilities		634,306	-	634,306
Deferred income tax liability	(ii)	860,913	(187,500)	673,413
Shareholders' equity				
Capital stock	(ii)	11,654,293	596,250	12,250,543
Contributed surplus	` '	2,645,074	•	2,645,074
Deficit	(ii)	(5,589,484)	(408,750)	(5,998,234)
Total shareholders' equity	•	8,709,883	-	8,897,383
		10,205,102	-	10,205,102

<sup>(</sup>ii) In the year ending March 31, 2011, the company spent proceeds from the flow-through issuances of the prior fiscal year (\$1,635,000). As a result, the company recognized deferred tax liability of \$408,750, and deferred tax expense of \$408,750.

During the year, the Company raised \$750,000 in two flow-through private placements. The money had not been fully expended at year-end. As a result, the deferred income tax liability of \$187,500 is not recognized until a subsequent year.

The Canadian GAAP Statement of Financial Position as at September 30, 2010 has been reconciled to IFRS as follows:

	Notes	Balance under GAAP	IFRS Adjustments	Balance under IFRS
Current assets				
Cash and cash equivalents		9,637		9,637
Cash restricted for flow-		355,153		355,153
through expenditures				
GST/HST receivable		46,880		46,880
Prepaid expenses		16,436		16,436
Total current assets		428,106	-	428,106
Duamantic plant and accimulant		20.200		20.260
Property, plant and equipment		28,369		28,369
Exploration and evaluation assets		9,296,877		9,296,877
		9,753,352	-	9,753,352
Current liabilities				
Accounts payable and accrued liabilities		213,498		213,498
Due to related party		125,000		125,000
Total current liabilities		338,498	-	338,498
Deferred income tax liability	(iii)	908,035	(158,750)	749,285
Shareholders' equity				
Capital stock	(iii)	11,306,307	408,750	11,715,057
Contributed surplus	` ,	2,166,380		2,166,380
Deficit	(iii)	(4,972,933)	(250,000)	(5,222,933)
Total shareholders' equity		8,499,754	-	8,499,754
		9,753,352	-	9,753,352

<sup>(</sup>iii) During the first quarter, the Company spent the remaining funds from a \$1-million flow through share financing. As a result, the Company recognized deferred tax expense of \$250,000 and deferred tax liability of \$250,000.

In the year ending March 31, 2010, flow-through shares were issued for proceeds of \$1,635,000. Under Canadian GAAP, the tax effect of renouncing flow-through expenditures was recorded as a reduction in share capital. Under IFRS, share capital is not reduced.

The Canadian GAAP Statement of Operations and Comprehensive Loss for the six months ended September 30, 2010 is reconciled to IFRS as follows:

For the six months ended	Notes	Balance	IFRS	Balance
September 30, 2010		under	Adjustments	under

<sup>(</sup>iv) In the quarter ending June 30, 2010, the company finished spending \$1,000,000 raised in a flow-through private placement raised in the previous year. As a result, the company recognized deferred tax liability of \$250,000, and deferred tax expense of \$250,000.

23

There were no reconciling differences between former Canadian GAAP and IFRS for the Statement of Operations and Comprehensive Income for the quarter ended September 30, 2010.

#### **Other Comprehensive Loss**

There were no IFRS conversion adjustments affecting other comprehensive loss.

#### **Cash Flow Statement**

There were no IFRS adjustments impacting net cash on the cash flow statement.
